Kishore Balaji

Boston, MA | (857) 230-6629 | balaji.ki@northeastern.edu | LinkedIn

Education

Northeastern University   Boston, MA
Master of Science in Information Systems   *Expected May 2026*
- **Relevant Coursework**: Application Engineering and Development, Web Design and User Experience

Anna University   Chennai, India
Bachelor of Engineering in Electrical and Electronics   *May 2021*

Skills

Languages: JavaScript, Java, HTML, CSS, SQL
Frontend Technologies: React, Vue.js, Angular, Ionic, Bootstrap, Material-UI, PrimeNG, Ant Design, jQuery
Backend Technologies: Node.js, Express.js, Java Spring Boot
Cloud and DevOps Technologies: AWS (EC2, S3, Lambda, IAM), Docker, Jenkins
Version Control Tools: GitHub, Bitbucket
Soft Skills: Strong Problem-Solving, Teamwork, Time Management, Proactive Learner

Experience

Full Stack Developer | Tibura Solutions India Pvt Ltd   Chennai, India
                                                                                                                              Dec 2022 – May 2024

- Developed a Sales and Distribution application using **Angular** and **Java** for Admin, Sales, and Service
- Designed, developed, and deployed a full **HRMS** module along with an Employee Time Management system from scratch
- Collaborated with cross-functional teams in an **Agile** environment, participating in sprint planning, daily stand-ups, and retrospectives
- Integrated **RESTful APIs** for real-time data communication, improving application functionality
- Managed **PostgreSQL** databases, ensuring data integrity and application performance
- Led the development and deployment of a **B2B mobile application** using the **Ionic framework**, published on **Google Play**
- Built an **E-commerce Integration platform** using **Vue.js**, **Node.js**, and **MySQL**, enabling real-time updates
- Developed websites using **WordPress**, integrating dynamic content management systems

Frontend Developer | Tibura Solutions India Pvt Ltd   Chennai, India
                                                                                                                              Nov 2021 – Dec 2022

- Developed micro-frontend architecture, **API** integration, and reusable components using **Angular**, **React**, and **Vue.js**
- Worked on mobile applications with the **Ionic framework**, providing cross-platform solutions
- Collaborated with **UX designers** to design and implement features using **Figma** to enhance user experiences

Software Developer Trainee | Tibura Solutions India Pvt Ltd   Chennai, India
                                                                                                                               Oct 2021 – Nov 2021

- Gained hands-on experience in web development using **HTML**, **CSS**, and **JavaScript**
- Developed responsive and dynamic web applications using **Angular** and **React**
- Explored cloud deployment technologies using **AWS** for development

Projects

HRMS Module and Employee Time Management | Angular, Java, PostgreSQL, Jenkins   Jun 2023 - May 2024
- Gathered requirements from clients and designed the **UI**, obtaining client approval before proceeding
- Led the development and deployment of the project on the client's physical server using **Jenkins**
- Managed a team, provided post-deployment support, and ensured successful delivery

B2B Mobile Application (NextFlo App) | Ionic Framework, Vue.js, Node.js, Google Play Deployment   Dec 2022 - Jun 2023
- Contributed to the development and deployment of the NextFlo app, a mobile application for Sundaram Motors Sales built using the **Ionic framework**
- Gathered project requirements from the client, designed and developed the application, integrating it with **RESTful APIs**
- Led a team in developing and deploying the application on the **Google Play Console**

Sales and Distribution Application | React, Node.js, MySQL, Figma   May 2022 - Dec 2022
- Developed critical modules for the Sundaram Motors application, designing and implementing various components
- Designed and developed the application using the **React** framework, integrating it with **RESTful APIs** for data communication
- Worked extensively with **PostgreSQL**, ensuring data integrity and efficient management
- Designed **UI** screens using **Figma** based on client requirements, fostering a user-centric approach

Supply Chain and Ecommerce Integration Platform | Vue.js, Node.js, MySQL, AWS   Nov 2021 - May 2022
- Developed critical modules for the Xtend E-commerce platform, playing a significant role in design and implementation
- Designed and developed the platform using **Vue.js**, integrating it with **RESTful APIs** for real-time data communication
